Death

It is said that Saladin was present in Mutadir Hud, at the end of the conflict with the mages, trying to negotiate with them. But it didn't work out, being the first to die, after the mage who was his rival, lost the chess game he was having while they were negotiating.

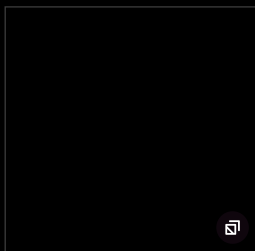

Legacy

Some time later, during Nibras' conquest of the kingdom of East Ofir, his steel sword would be recovered, protected and restored in honor of the witcher who allowed him to live longer. Years later, this sword would be given to the son of Nibras, another witcher, [Putnam Pitch](#), after his griffin steel sword was swallowed up by the desert during the rescue of her half-sister Nurshah, as a thank you and compensation for the loss of his old sword.

Trivia

- The portrait of Saladin, belongs to one of the avatars of the mobile video game *The Witcher : Monster Slayer*. Edited a bit to make it look better. The intention was to give to the avatars the game a bit of background in the world of The Witcher.
